My dear Cousins:

If ever I were at a loss for words to express myself, just now is that time. In fact I have never heard more exclamations of "ohs and ah-s" over Christmas gifts, than have been said by my folks, over gifts sent by our Cos. Jena and his wife—for my part I thank you over and over again—but this seems so dumb compared to my feeling—So perhaps "silence is golden" just now. My flowers are beautiful—glass interesting (if that word applies) from being manufactured in Ga.—and in

the Collier Factory - and my towels are lovely - I Thank you

I came home yesterday, and have Christmas Cards piled up - one from Stockton California - I shall never forget the one Durward sent from Manchester Eng - That one has the highest place in Memory "Neall -

Asking to be remembered to all - wishing each one a happy and prosperous New Year - and again adding, I thank you

Sincerely Yours
"Cox. Mary"

Mrs. J. J. W.
